ECOBIRDS VS COMPETITORS

Suitable for all surfaces, even on extremely narrow ones

Extraordinarily flexible and bendable in all directions, ideal for curved surfaces and statues

Active even if in contact with only one wire

Manufactured with noble and long-lasting materials

Not applicable to surfaces < 5 cm (1.9 in)

Not suitable in presence of curves and complex structures

Birds feet must touch both wires simultaneously to get the shock

Limited materials duration

ECO BIRDS

**The ECOBIRDS range is designed,
industrialized and produced entirely in Italy.**
